CONTRACTOR HAULING CAPABILITIES

Reliable material delivery and heavy hauling for commercial contractors,
builders & developers

CONTRACTOR HAULING CAPABILITIES

Reliable material delivery and heavy hauling for commercial contractors, builders, and developers across Greater San Antonio.

ODG's fleet is dispatched from Cibolo, TX and coordinates directly with site superintendents.

Bulk Material Delivery

From road base and select fill to washed sand and specialty aggregates, we deliver the volume you need, when you need it. Our dispatch team coordinates closely with site superintendents.

Road base & limestone delivery

Sand & aggregate supply

Fill dirt & select fill

▲ Dedicated truck runs available for large projects requiring continuous material flow.

Site Logistics & Support

We do more than drop off dirt. We partner with contractors to manage the logistics of bringing materials in and hauling spoils out, helping you maintain a clean, productive jobsite.

Incoming material + haul-off coordination

Multi-truck scheduling

Recurring daily hauling

Fleet Capacity

Our modern fleet of quad-axle dump trucks and heavy haulers is maintained for reliability and safety. We can dedicate multiple trucks to a single site to ensure continuous material flow or rapid haul-off.

Tandem — tight access & residential

Tri-axle — mid-volume commercial

Quad-axle — high-volume commercial

APPLICATIONS & PROJECT GUIDE

How Contractors & Homeowners Use Contractor Products

Commercial Site Delivery

ODG's quad-axle trucks deliver high-volume material to commercial sites with consistent loads and dispatch communication. Multiple trucks can run the same site simultaneously.

Materials In, Spoils Out

Coordinate material delivery and haul-off in the same call. ODG can bring road base in and take excavation spoils out on the same day — maximizing site efficiency.

Recurring Scheduled Hauling

For projects that need daily or weekly material delivery, ODG sets up a recurring schedule with your superintendent — no new call required each time.

Construction Access Support

We supply construction entrance pads (bull rock, limestone base), deliver materials in sequence with your activity schedule, and coordinate around concrete and framing crews.

Pro Tips Before You Order

Call early for multi-truck days

Scheduling 3+ trucks on the same day requires advance coordination. Call dispatch at least 24-48 hours ahead for large material delivery days.

Share site access details upfront

Gate codes, entrance dimensions, site contact name, and dump location should be confirmed before the first truck rolls. Last-minute access issues delay the whole schedule.

READY TO ORDER?

CONTACT ODG FOR PRICING & DELIVERY

Tell us your material, approximate quantity, and delivery address. We'll confirm availability, pricing, and lead time — usually same call.
